

Timelines

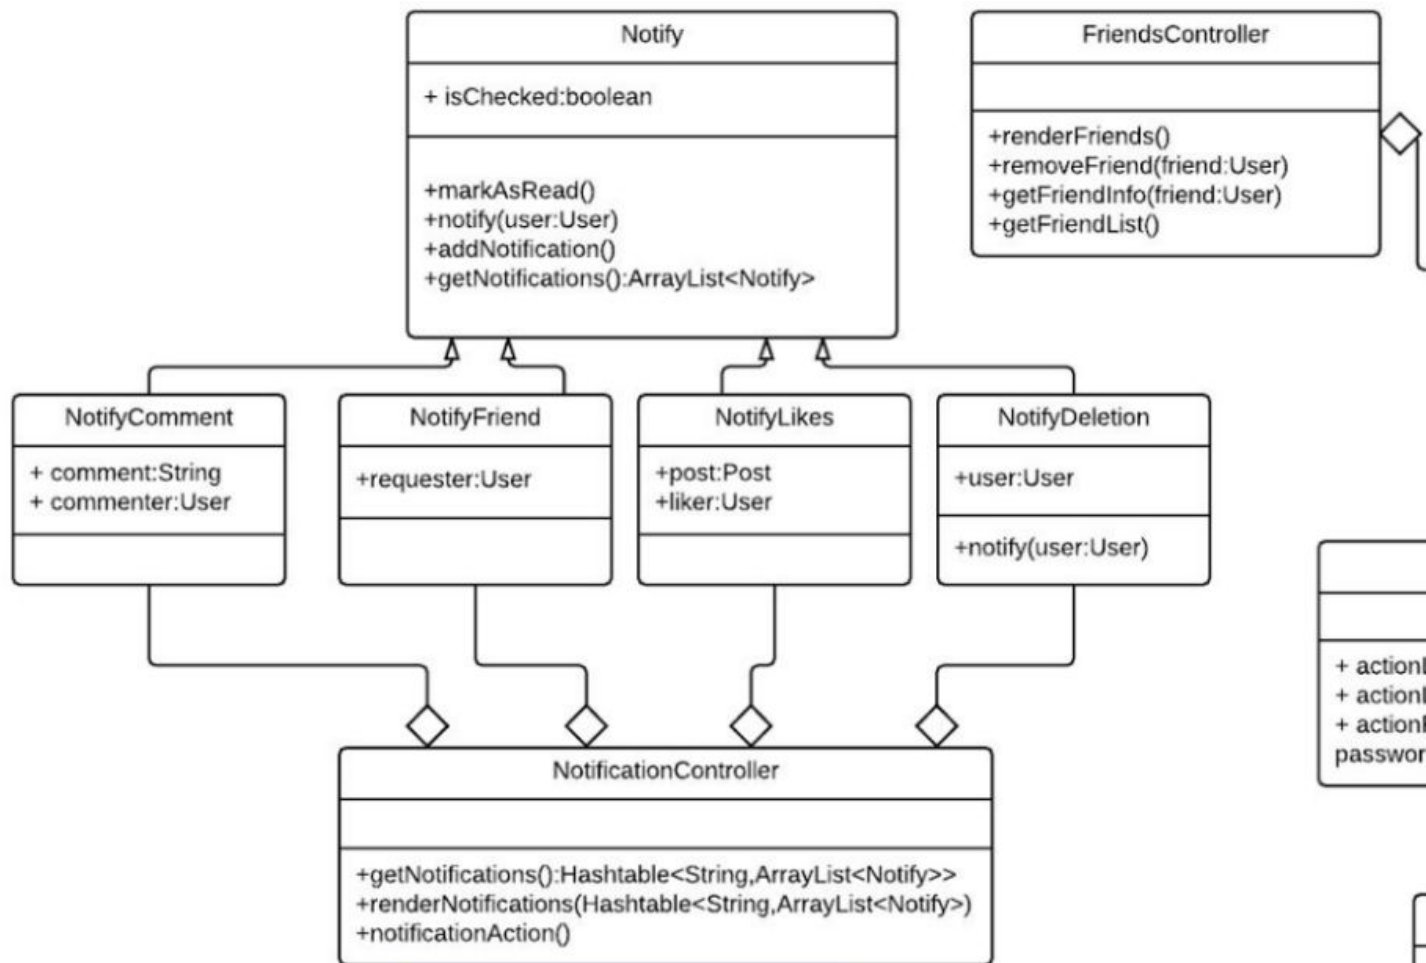

...

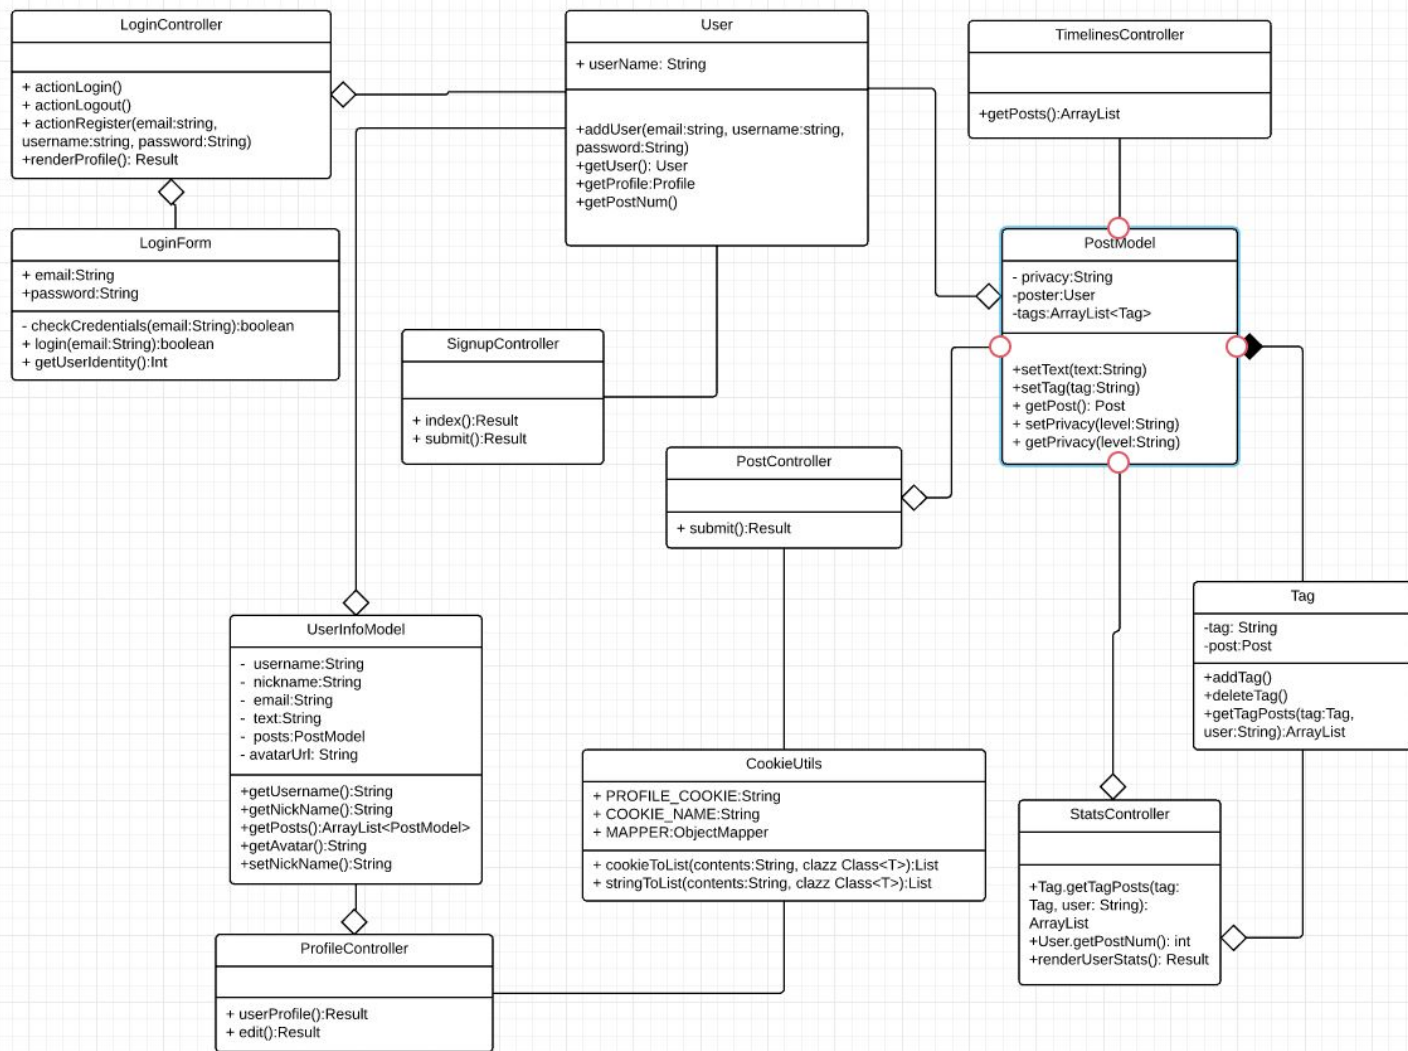

A social media app for data nerds

Yue Zhang & Jeannette Pepin

Demo

<http://screencast.com/t/HpJ0X07Hy6Q>

Architecture

- Play Framework
- View: Bootstrap & Javascript
- Controller and Model: Java
- Data Persistence: MySQL, Cookies for offline data storage

Possible Design Patterns

Observer - notifications

Decorator - add tags

Strategy - filter by tags

Singleton

Offline Functionality

(Cookie Serialization)

Takeaways

- Good design doesn't fix a resource problem, but it does maximize productivity
